

With OEM-licensed fluids...

THE LICENSE IS THE BENEFIT

**ALL
THE
FACTS**

OEM-licensed fluids have performance validation based on OEM specs and are created to OEM standards.

OEM-licensed fluids are the only products that can legally use OEM trademarks on their packaging, assuring OEM-licensed quality.

OEM-licensed fluids can back up claims of performance based on license documentation. This data may not be accessible with a non-licensed product.

OEMs stand behind products they license. This assurance allows you to install licensed fluids with total confidence.
